

Methane Regulatory Design

How are leading jurisdictions implementing policy and technological solutions to reduce methane emissions?

And what benefits are they seeing from their efforts?

Agenda

1. Experience
2. Successes & Challenges
3. How to overcome challenges

Experience

Executed 30+ emission reduction projects; evaluated 70+

Well Sites

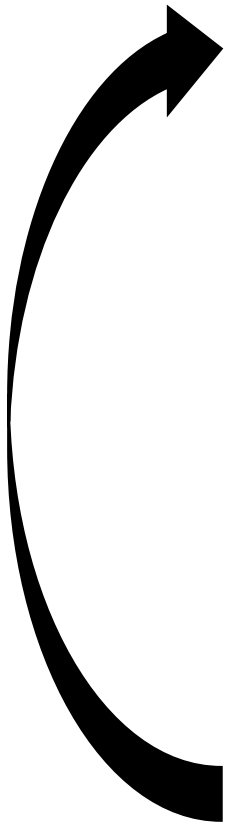

Facilities

4 Provinces

Pilot
Projects

Partnerships

Successes & Challenges

Successes	
1	Broad implementation
2	Long-term habits
3	Risk mitigation
4	Awareness & influence
5	Leadership

Challenges	
1	Capital allocation
2	Internal education / buy-in
3	Experience / systems / knowledge

Driving Change

Keys to overcoming challenges in methane management

Capacity

Champions
