systems

Objectives

1. Taking stock of **Albertan efforts for community RE** and the barriers faced under status quo policy; and
2. **Capacity-building** to foster success stories in Alberta; taking best practices from other Canadian jurisdictions
3. Creating a common understanding of the **policy & program solutions** to barriers and take steps to stakeholder consensus

Agenda

- **Welcome message & lunch**
- **Alberta context**
- **Status-quo efforts**
- **Capacity building**
- **Policy & program solutions**

Social event @ Palomino (5:30 pm)

109 7th Ave SW @ Centre & 7th

Ground rules

- **Chatham House rule** — free to use information received without revealing identity of speakers & participants involved
- **Open discussion** — information reflects personal experience, not organizations'
- **No silver bullet solutions** needed!
- **Ask questions** — lots of experts in the room, so please ask lots of questions!

Ice-breaker!

- **Name & role**
- **Organization(s)**
- **Interest in community energy**
 - Public institution — government projects & programs
 - Local partnerships — co-op & utility-partnership projects
 - Benefit/revenue sharing — retail & commercial projects
