Results are based on two-sided tests. For each significant pair, the key of the category with the smaller column proportion appears in the category with the larger column proportion.

Significance level for upper case letters (A, B, C): .05

a. This category is not used in comparisons because its column proportion is equal to zero or one.

b. Cell counts of some categories are not integers. They were rounded to the nearest integers before performing column proportions tests.

BR1-5) Thinking now about issues related to energy and the environment... To what extent do you agree or disagree with the following statements?

	Total	REGION						AGE			GENDER		EDUCATION			INCOME			INDIGENOUS/RACIALIZED		CHILDREN AT HOME		BORN IN CANADA		MARITAL STATUS		
		Calgary	Edmonton	Calgary - non-city, CMA	Edmonton - non-city, CMA	Small cities	Rural	18-34	35-54	55+	Male	Female	H.S. or less	College/Some P.S.	University degree	<\$60K	\$60K-\$120K	\$120K+	Yes	No	Yes	No	Yes	No	Married / Common-law	Single	Other

Results are based on two-sided tests. For each significant pair, the key of the category with the smaller column proportion appears in the category with the larger column proportion.
 Significance level for upper case letters (A, B, C): .05
 a. This category is not used in comparisons because its column proportion is equal to zero or one.
 b. Cell counts of some categories are not integers. They were rounded to the nearest integers before performing column proportions tests.

BR6) Do you agree or disagree that Albertans should have more opportunity to participate in these types of programs?

Results are based on two-sided tests. For each significant pair, the key of the category with the smaller column proportion appears in the category with the larger column proportion.

Significance level for upper case letters (A, B, C): .05

a. This category is not used in comparisons because its column proportion is equal to zero or one.

b. Cell counts of some categories are not integers. They were rounded to the nearest integers before performing column proportions tests.

BR7) Do you agree or disagree that...?
