Don't miss unGALA 2027!

January 28 will be an unconventional, western-themed night with a relaxed atmosphere, great food, and meaningful connection with leaders across Canada's sustainability sector. Throw on your cowboy hat and celebrate a clean energy future that supports a prosperous, connected economy.

This isn't a night of long speeches or being talked at. Instead, expect great conversations, valuable networking, and an inspiring keynote from a high-calibre guest speaker who will challenge and energize the room.

Secure your 2027 sponsorship early.

The sold-out 2026 unGALA welcomed 300+ guests, including industry leaders, clean tech entrepreneurs, government officials, non-profit teams, and funders, all coming together to celebrate a bold and inclusive clean economy in Canada.

About the Pembina Institute

Our 50+ staff in Ontario, Alberta, and B.C. aim to deliver clean energy solutions into the hands of decision makers, thought leaders, industry, and media. By supporting the Pembina Institute, you are helping transform Canada for the better through our work advancing industrial decarbonization across oil and gas, electricity and heavy industry, and supporting cities and communities in reducing emissions and improving energy efficiency through practical solutions in buildings, transportation and local energy planning.

unGALA

Thank you for your support!

Although we're a hard-working, strategic, and productive bunch, it's still a tall order for a team of our size. We don't do this alone! Our success ultimately depends on people like you – our sponsors ensure that we're able to deliver a fun event that celebrates our Canadian clean energy successes and provides the opportunity to engage with each other to connect and discuss potential future endeavors.

Join us at the Evergreen Brick Works!

CRH Gallery event space at Evergreen Brick Works was transformed from a collection of deteriorating heritage buildings into a globally recognized showcase for green design and urban sustainability. All proceeds from event space rentals go to support Evergreen's efforts to create greener, more sustainable cities.
